Note: This product needs to be equipped with 18650 Sharp-Ended Battery *2; charger *1;CR2025 button battery *1

2.Safety reminder

(1) When using the water gel blaster car, please wear safety goggles and do not aim the blaster at people;

- (2) Do not attempt to eat the water gels. If ingested or inhaled accidentally, please seek medical attention immediately;
- (3) Use the water gel blaster car in open and safe areas;
- (4) The water gel blaster car is recommended for students aged 12 and above;
- (5) The bullets of the water gel blaster are made of sodium polyacrylate crosslinked copolymer, a superabsorbent resin with a network structure formed by crosslinking hydrophilic groups. Sodium polyacrylate does not cause long-term negative effects in the natural environment, nor does it contain or produce harmful or toxic substances.
- (6) Instructions for soaking water gels: ① Soak for at least 4 hours. Prepare a large container and place the water gels inside, ensuring they do not overflow after swelling;
② Use purified water for soaking. Ensure sufficient water volume. Using tap water, well water, mineral water, or other impure, hard water may cause the water gels to be smaller in size.
